11 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

12 **SECTION 1.**

13 Chapter 5 of Title 49 of the Official Code of Georgia Annotated, relating to programs and
14 protection for children and youth, is amended by striking Article 13, relating to PeachCare
15 for Kids, in its entirety and inserting in lieu thereof a new article to read as follows:

16 "ARTICLE 13

17 49-5-270.

18 This article shall be known and may be cited as the "PeachCare for All Kids Act."

19 49-5-271.

20 The General Assembly finds and declares:

(1) All children need quality, timely health care in order to achieve maximum physical and mental health, to benefit fully from their educational opportunities, and to mature into the productive citizens tomorrow's Georgia needs;

(2) It is the right of every Georgia child to have such health care;

(3) Lack of health insurance is associated with low utilization of appropriate health services, poorer health, poorer school achievement, and lower lifetime earnings;

(4) At least 100,000 Georgia children are uninsured, and many others have unstable or inadequate insurance;

(5) While the United States spends more per person on health care than any other country, a far higher proportion of our citizens are uninsured than in any other economically developed country; we receive fewer doctor visits than citizens of the nations that are our economic competitors, and we have poorer health outcomes and life expectancy. That health coverage is ensured by the public sector in other major nations but not in the United States puts Georgia businesses at a competitive disadvantage in the emerging global economy;

(6) Employment based insurance has declined in Georgia and in the rest of the United States as the burden of uncontrolled and unpredictable health spending has led many businesses to end or reduce coverage and others to close their doors or move offshore. Many people in Georgia who desire to pursue business opportunities are constrained by the need to remain in particular employment to retain health coverage;

(7) The current Medicaid and PeachCare for Kids programs are tools the state can use creatively to assure access to health care for all children and to improve the state's economy. Establishment of the PeachCare for All Kids program pursuant to this article leverages state buying power while utilizing heretofore untapped federal funds available to the state; and

(8) Establishing PeachCare for All Kids in Georgia is in the public interest by removing a persistent worry for families and serving as a major benefit for all Georgia businesses as well as an incentive for others that may consider relocating to this state.

49-5-272.

As used in this article, the term:

(1) 'Department' means the Department of Community Health.

(2) 'PeachCare for All Kids' means the health care insurance plan created by Code Section 49-5-273 and shall include PeachCare for All Kids A, PeachCare for All Kids B, and PeachCare for All Kids C.

(3) 'PeachCare for All Kids A' means the PeachCare for All Kids health care insurance plan created by subsection (c) of Code Section 49-5-273 for children in families with incomes at or below 200 percent of the federal poverty level.

(4) 'PeachCare for All Kids B' means the PeachCare for All Kids health care insurance plan created by subsection (d) of Code Section 49-5-273 for children in families ineligible for PeachCare for All Kids A due to income, but with incomes below 400 percent of the federal poverty level.

29 services provided under PeachCare for All Kids C, provided that copayments are not
